If you are a Sailing Teacher or you have a Sailing Center, **Astro ONE\***, is the ideal starter for your school.

1) Optimization of learning hours:

- Minimum water-boarding when sailing: Beginners will focus on sailing, not bailing,
- Does not remain flooded after capsized: Can keep on sailing "non stop" after righting,
- Wider deck: Comfortable helming position that allows easy hiking with less effort,
- Sessions better used and by more sailors: Due to its bow design, you can lengthen the session with strong wind. The novice students now enjoy more running... ,
- Improved latent security in the training area: Improved fleet control, Lower dispersion, Few time helping to sailor, he is more autonomous to continue, do not get tired,
- The sailor acquires an unusual sureness that empowers his progress,
- Starting age can be lowered,
- Reduced number of dropouts..!

2) Standard Equipment :

- Same equipment for the entire fleet..! Daggerboard case supports both classic marine plywood school boards or ONE Design ones,
- School spars or race spars. You can use existing equipment, you choose ... ,
- School sail or race sail depending on the level of the sailor... ,
- Sail with reduced sail area optional,
- Simplified systems.
- Ready to sail in 5 minutes..!

3) Durability with Performance:

- Agile and fast sailing,
- Built to last with the ASTRO quality standard,
- Compact design with continuous deck that allows a better distribution of efforts when beaten at the gunwale. Less breakage... ,
- School-Boat for your fleet of "novice single-handed" but with race stiffness, weight and performance..! ,
- Unsinkable (over-sized rigid interior buoyancy area),
- Optional bow protection.

4) Training for competition :

- If your club or sailing school has sport activity in Optimist Class, **Astro ONE** is the best tool to provide new sailors for the racing team...

\*.- **Astro ONE**, is not a IODA Optimist and can not be certified for official races..!
